Lipitor is one of the most popular cholesterol drugs on the market, and has been prescribed to millions to help lower their cholesterol.

People living here will remember the crazy bump in salt prices after the Japanese nuclear disaster and a rumour that salt could be used to combat radiation.

Buddhist world view made its own unique contributions to Chinese culture, while at the same time undergoing changes.

I'm in the same boat, being treated for depression, anxiety and bulimia.

These diseases cross all borders so the drug industry's objections were unlikely to succeed.

Shipping prescription drugs through FedEx
